- Robotic Technologies
- Reading Book
- Sports
- Hunting

LANGUAGES

- Turkish (Native)
- English (Intermediate)

PROFILE

I was born and live in Izmir. During my undergraduate education, I participated in Teknofest competitions. I was working in United States between June and October 2022 and gained proficiency in English. I have a special interest in artificial intelligence and robotic systems. I actively develop mobile applications in freelance projects. I will start my master's degree in Computer Engineering in 2025.
